

WAVE CEPTOR
RADIO CONTROLLED

Equipped with fascinating outdoor features and innovative TOUGH MOVEMENT technology* – which impresses with WAVE CEPTOR, TOUGH SOLAR, a special hybrid construction and automatic hand adjustment – the PRW-5000 gives trekkers just about everything they need, showing nature where the limits lie in a truly striking way.

*For further information, see page 3.

CASIO SPORT

The portable training partner:
The PHYS CHR-100 and CHR-200 models with chest belt show competitive runners their heart rate and have a built-in fitness monitor. When transmitting the data from the chest to the watch, the CHR-200 models use a personal code to prevent any outside data from being transmitted along with it. The chest belt is water-resistant – up to 3 bar.
