This is a training partner you can take with you anywhere: our PHYS CHR and CHF models with chest belt show competitive runners their heart rate and have a built-in fitness monitor. When transmitting the data from the chest to the watch, the CHR-200/CHR-210 models use a personal code to prevent any outside data from being transmitted along with it. Every chest belt is water-resistant — up to 5 bar (CHR-210) and up to 3 bar (CHF-100, CHR-100, CHR-200).
